

The New Standard for Powerful Charging

Smart, reliable charging from the brand you trust.

The Type A and Type-C™ USB Charger/Tamper Resistant Receptacle offers superior charging power for smartphones, tablets, laptops, monitors, printers and more. Two high powered vertical USB Ports, one Type A and one Type-C, deliver a combined total of 5.1A charging current and 25+ watts of power. Smart chip technology recognizes and optimizes the charging requirements of individual devices and the Type-C port enables the cables to be inserted easily in either direction.

The Type A and Type-C™ USB Charger/Tamper Resistant Receptacle is a powerful solution to help keep your devices charged with ease and style.

Features

- Smart chip technology recognizes and optimizes the charging requirements of individual devices including Apple, Samsung, Nexus, Pixel and more
- The Type-C Port provides up to 59% faster charging power versus competitors*
- One Type A Port and one Type-C Port; combined total of 5.1A of charging power
 - Type-C Port can charge maximum 3 Amps @ 5V
 - Type A Port can charge maximum 2.4 Amps @ 5V
- Tamper Resistant improves child safety – built-in shutter prevents access by most non-rated/foreign objects
- USB Ports tested to withstand over 10,000 insertions
- Charges most Type A and Type-C USB powered devices
- Type-C Port permits the cables to be inserted easily in either direction

Type-C devices have a Reversible Connector
Never worry about which way to plug in again. USB-C is a new user-friendly reversible connector that allows you to plug in your cable to your device in any direction.

- Charging time may be affected by the charge cord used. Leviton recommends using the cord provided with the device
- Hospital Grade models available with brass self-grounding clip to ensure secure and reliable performance
- Compatible with Decora® wallplates and Decora Plus™ screwless wallplates
- Ideal for residential and commercial applications including kitchens, bedrooms, home offices, college dormitories, airport lounges, hospitals, salons and spas, hotels, meeting rooms, cafes, restaurants and more

*Testing performed using Lightning cable on C Port with iPhone 7, iPad Mini 1, iPad Pro 9.7

Wiring Diagram

Tips to maximize charging

- 1) Not using the phone while charging, will significantly shorten the charging time.
- 2) The charging cord that came with the device should maximize charging effectiveness.
- 3) Cord length may affect the power and speed of the charge. Longer cord lengths may take longer to charge.
- 4) Replacement cords should be OEM grade quality or approved by the device manufacturer.

Ordering Information

Cat. No.	Description	Combined Charging Capability	Rating	Color*
T5633	15A Type A and Type-C USB Charger Tamper Resistant Receptacle	5.1A	15A – 125V	W, I, T, GY, E, B
T5633-HG	15A Type A and Type-C USB Charger Tamper Resistant Hospital Grade Receptacle	5.1A	15A – 125V	W, I, T, GY, E, R, -

* To order colors, add suffix to Cat. No.: White (-W), Ivory (-I), Light Almond (-T), Gray (-GY), Black (-E), Brown (-B), Red (-R). (-) Designates brown for Hospital Grade devices (no suffix).
