Occupancy and Vacancy Sensors

Brand Features

Leviton's self-contained passive infrared ceiling occupancy sensor is the cost-effective choice for commercial and institutional installations, where installation of the recessed ceiling unit is difficult, inconvenient or costly. Available in 120V, 220V and 277V versions, the ODC0S-I is ideal for storage areas, small bathrooms, copy rooms, mop/sink closets or small spaces without wall switches. The self-contained ceiling sensor does not require an external control unit for power or switching the load on and off.

Item Description

Technology: Passive Infrared, Mount: Ceiling, Coverage Range Sq. Ft.: 0530 Sq. Ft., Adjustment: Manual, Load Rating: 1000W INC 1000VA FL, Input Voltage: 120 Volt AC 60Hz, Pattern Degrees: 360, Title 24 Compliant: Yes, Grade: Commercial, Color: White
